
LEVEL 2

For training purposes, I want you to take over all the withdrawals that can be fulfilled with exactly two coins.

- You are given a list of currencies.
- For each currency you are given amounts of money that customers want to withdraw.
- For each amount, **construct it with exactly two coins** of the given currency.
- You may use two coins of the same value.
- Every amount has a solution.
  There may be multiple correct solutions.

# Input

| Name | Description | Example |
|---|---|---|
| N | Number of currencies | 3<br>5<br>3<br>1 2 6 9 14<br>10 4 15<br>1 2 3 4 7<br>7 11 10<br>1 3 5 8 11<br>12 14 6 |
| C | Number of coin values per currency | |
| A | Number of amounts per currency | |
| Repeated N times | | |
| Currency | C integers separated by spaces, each representing the value of a coin | |
| Amounts | **A integers representing the amounts to construct with exactly two coins** | |

# Output

| Name | Description | Example |
|---|---|---|
| **Solution Pair**<br>(repeated N × **A times**) | Two integers representing the two numbers necessary<br>**to construct the given amount** | 1 9<br>2 2<br>1 14<br>3 4<br>4 7<br>3 7<br>1 11<br>3 11<br>1 5 |
